My experience with the Daley Group and in particular Mr. Jerry Leath has been very fulfilling and uplifting, to say the least! I have found their organization to be the most professional and intelligent I have ever been involved with.

I am a small business manufacturer in operation for nearly seventy years, and have found myself "faltering" in the last few years in sales, lack of marketing, budgets, bookkeeping, etc. My favorite saying was, "It's never been broke, so I don't know how to fix it." I secured The Daley Group to come in and give me their professional analysis and it was the best decision I have ever made. Their work ethic and total commitment to their client is amazing. They analyze in great detail the company's particular situation and present a multi-stepped presentation for recovery. I have worked with "consulting groups" in the past with less than satisfying results.

The Daley Group is by far the finest organization in their field, and I would wholeheartedly recommend their firm to any company who wishes to better structure and increase their future lifespan and profitability.

Yours in Continued Success,
